PROFILE

I am a developer and digital designer. I like coding beautiful projects with a focus on accessibility, so everyone can enjoy my applications! In addition to my development skillset, I also have a background in video game design and visual effects. Using my blended experiences, I want to build applications that are user-friendly, make people's lives easier and happier.

SKILLS

HTML, CSS, SCSS, Javascript, JQuery, React, Firebase, API's, Git/Github, Paired Programming, Mob Programming
